

## TESTIMONIAL REFERENCE LETTER

Attn: Mr. John Hodson

Dear Mr. Hodson

We are using your Cardox system for cleaning of our kiln inlet and heat exchanger. With the increasing of various alternative fuels, we are forced to use more and more times your equipment.

We are very satisfied with it because it is very efficient for clearing of encrustations (I hope that you are also happy for our orders of safety heaters and rupture discs).

On the other hand sometimes we would need a nozzle with only one side direction of gas escaping.

Please let me know if you produce one side direction nozzle and about a possibility of delivery 2 pieces to our plant.

In case you might have any further questions please send me an e-mail.

I am looking forward to hearing from you soon.

Yours faithfully,

Novotný Stanislav
