BY FACSIMILE

Cardox International Limited

For the attention of John Hodson

Dear John,

Many thanks for arranging the prompt delivery of Cardox equipment to British Steel Works at Port Talbot.

This really helped us to clear and discharge build-up of coal from the silos.

I know we have talked about this before but please give us a price for the Cardox System. Our idea is to retain the Cardox at British Steel Port Talbot for use when required.

Yours faithfully
ROPNER
